Safe Holiday Is Plea of Eisenhower

(By The Associated Press)

Millions of motorists today headed for the highways for a three-day Labor Day holiday, the last long weekend of the summer season, with a plea from President Eisenhower for careful driving.

The President deplored the "grim forecast" by the National Safety Council that 390 persons will be killed in traffic accidents in the three-day period.

THERE WERE only a few deaths in motor mishaps in the first hours of the 78-hour holiday weekend, starting at 6 p. m. Friday and which extends to midnight Monday.

President Eisenhower, in his appeal to motorists, said: "Let's be careful this weekend. Let's stay alert. Let's remember the simple rules of the road. Let's fool the experts. Let's all be alive next Tuesday."

There were 405 traffic fatalities over the three-day Labor Day holiday last year. The overall total of violent deaths was 574, including 70 drowned and 99 killed in miscellaneous accidents. The record traffic death toll for the Labor Day holiday was 461 in 1951, while the record over-all toll was 658, also in 1951.

COUNCIL RECORDS disclosed that traffic deaths up to Aug. 1 this year occurred at the rate of 91 every 24 hours. Included were deaths occurring some time after injury, days or weeks.

An Associated Press survey in a non-holiday 78-hour period, from 6 p. m. Friday, Aug. 20, to midnight Monday, Aug. 23, showed 346 persons lost their lives in motor mishaps. It also showed 43 persons were drowned and 104 were killed in various types of accidents for an overall total of 493.

Since 6 p. m. Friday the traffic toll was five, with one death each reported in Idaho, Oklahoma, New Jersey, Connecticut and Alabama.

Pate Sentenced

Tokyo, Sept. 4 (AP)—Far East forces said today that Maj. Thomas Pate of Los Angeles, last month convicted of stealing \$200,000 in military script, was sentenced to dismissal from the service and seven years at hard labor. FEAF's belated announcement said the court martial took place "about Aug. 21," but that its headquarters had not been informed of the trial and verdict by Pate's unit, the Far East Air Materiel Command. The two organizations are about 20 miles apart in the Tokyo area.

Gen. Singh Killed

Nairobi, Kenya, Sept. 4 (AP)—Gen. Kala Singh—second prominent Mau Mau gang leader caught within a week—was killed by security forces in the Mount Kenya area yesterday. Singh and 20 followers were waylaid during the latest security sweep. Three other terrorists were killed trying to escape. Singh's death follows that of Field Marshal Kerito Ole Kisio, second in the hierarchy of Mau Mau commanders.

Taylor Will Quit, Dewey Won't Run, Says Paper

Troy, Sept. 4 (AP)—The Troy Record said today that Rep. Dean P. Taylor would resign as Republican State Chairman next week, and saw such a move as indication that "Gov. Dewey has definitely decided not to be a candidate."

The newspaper said it had learned from close friends of the Troy congressman that Taylor had called a meeting of the GOP State Executive Committee for 12:30 p. m. Wednesday in New York City "and at that time will submit his resignation."

The report added: "When Taylor took over the chairmanship, it was understood by many of his friends that he did so with the understanding that Gov. Dewey would

\$155,000 School Bonds Approved In West Hurley

Voters of Union Free School District No. 5, West Hurley, Friday night approved a \$155,000 bond issue to finance construction of an addition to the present school building.

Also approved was a proposal to purchase 1.3 acres of adjoining land at a cost of \$1,000. The vote on the bond issue was 63 in favor and nine opposed.

On the purchase of land for future expansion, 61 votes were cast in favor and 10 against.

A TOTAL of 74 persons voted between the hours of 7:30 and 10:30 p. m. Two ballots were declared void, and one was left blank on the second proposition. James Hogan, a member of the school board, presided. Election inspectors were Robert Finkle, Albert Davis, William McNamee and Thomas McNally. The proposed schoolhouse addition will contain four new classrooms, an all-purpose room, a kitchen and a board room. One of the classrooms will be a kindergarten room. Augustus B. Schrowang is the architect.

Wiley Flies to London

Bonn, Germany, Sept. 4 (AP)—Sen. Alexander Wiley (R-Wis.), chairman of the U. S. Senate Foreign Relations Committee, left here today by air for London. Wiley, who is touring Europe, talked with Chancellor Konrad Adenauer while in Germany and plans to see Prime Minister Churchill. He said he also hopes to talk with French Premier Mendes-France in Paris.

School Bus Caution

Albany, Sept. 4 (AP)—The superintendent of state police reminds motorists that they must halt when meeting or overtaking a stopped school bus. Albin S. Johnson said yesterday that, with schools reopening after Labor Day, all troopers had been instructed to enforce the school bus law rigorously.

Part of 8th Army May Go to Japan: Taylor

Seoul, Sept. 4 (AP)—Gen. Maxwell D. Taylor said today that part of his U. S. 8th Army Headquarters "may well go to Japan" at a later date.

His statement was the closest thing yet to confirm a rumor that the 8th Army may be split—part remaining in Korea and part being stationed in Japan.

Taylor told a news conference the possible 8th Army split would be in the pattern of the 5th Air Force move announced last week. Under this plan the 5th has pulled its main headquarters back to Nagoya, Japan, and left its advance headquarters in Korea.

Before the Korean war the 8th Army was based in Japan.

be a candidate for a fourth term. Taylor's forthcoming resignation, to many political observers, seems to indicate that Gov. Dewey had definitely decided not to be a candidate.

Taylor could not be reached for comment. The story outlined several reported reasons why Taylor might give up the chairmanship, then summed them up this way: "Whether Taylor's impending resignation . . . is due to ill health, the press of private business or the fact that Gov. Dewey will not be a candidate again—or a combination of all three—is a matter of conjecture."

Taylor is senior partner in a Troy law firm. Taylor became GOP State Chairman on Sept. 23, 1953, succeeding William L. Pfeiffer of Loudonville.

Chance Is Hearings to End Soon McCarthy Verdict May Take Time

Washington, Sept. 4 (AP)—Sens. Watkins (R-Utah) and Case (R-S.D.) saw a chance today that hearings on censure charges against Sen. McCarthy (R-Wis.) will end next week. But they wouldn't say how long it might take to write a verdict.

Watkins is chairman and Case a member of a special bipartisan committee set up by the Senate to consider a resolution introduced by Sen. Flanders (R-Vt.) to condemn McCarthy's conduct as unbecoming a senator and as tending to bring the Senate into disrepute.

When the six-man group finishes its report, the Senate is slated to be called back into session to consider the findings.

In 2½ days of public hearings this week, before recessing until next Tuesday, the committee put into its records a mass of documentary evidence bearing on five categories of charges against McCarthy.

THESE CHARGES were among 46 specific accusations, some of them overlapping, filed by Flanders and Sens. Fulbright (D-Ark.) and Morse (Ind.-Ore.) in support of the censure resolution.

Watkins, at a news conference yesterday, described the committee as "as fair a group as you can find in the Senate."

"I don't find any prejudice in the committee against Sen. McCarthy," he said. Besides, he said, McCarthy himself hasn't challenged any member "so what's all the fuss about?"

McCarthy, a day earlier, said Watkins had made the "fantastic statement" in a TV interview that it was unimportant whether or not the committee members were impartial.

WATKINS SAID that what he had in mind was that impartiality was not a requirement for members of the Senate who, he added, compose the "jury" that will finally pass on the censure question.

Under the constitution, he said, the Senate is the actual jury because it is made the judge of its members. "No one can change this except by amendment of the constitution," he said.

McCarthy, while not formally challenging the impartiality of any of the committee members, has asked that Sen. Edwin C. Johnson (D-Colo.), the group's vice chairman, be directed to state whether he was correctly quoted by the Denver Post in an interview last March when Johnson was quoted as saying that all Democratic leaders in Congress "loathed" McCarthy.

JOHNSON SAID, after McCarthy first raised the question, that he had never said he personally loathed McCarthy and that he believed he could be impartial. (Continued on Page 3, Col. 3)

Lineman Loses Arm in Mishap

Wurtsboro, Sept. 4 (AP)—The condition of Ralph Young, 35-year-old lineman who accidentally touched a high voltage wire, remained critical today at Monticello Hospital.

The accident occurred yesterday while Young was working on a Rockland Light and Power Co. transformer.

Hospital officials said one of Young's hands was burned away by the charge and that an arm had to be amputated. They also said there was a possibility that a leg amputation would be necessary.

SUCH PERSONS, born in the United States, would be sent to the country of their choice, if acceptable there. Those who had been naturalized citizens would be returned to their homelands. (Continued on Page 10, Col. 6)

\$31,928,000 River Project Approved

A \$31,928,000 Hudson river navigation project is included in the new billion-dollar river and harbor authorization measure approved yesterday by President Eisenhower, an Associated Press dispatch reports.

The measure, signed by the President in Denver, Colo., lists New York state projects amounting to \$39,331,600—including the Hudson river project.

The program also includes a \$32,200 item for navigation on Westchester creek. The bill does not appropriate any money. Funds to start the projects will have to come from appropriation measures later.

Shelling Is Reported By Vessel Danish Ship Left Soviet With Load

Tromsø, Norway, Sept. 4 (AP)—The captain of a Danish freighter reported today his ship, the 1,200-ton Patricia of Struer, was shelled last Tuesday by a Soviet destroyer off Russia's Murmansk coast.

Capt. Niels Jensen said the shelling took place in international waters about 30 nautical miles off shore, between the entrance to the White sea and the Rybatshi peninsula.

The Danish ship was about two days out of the Soviet city of Mezen, where it had picked up a cargo of lumber, when two Russian destroyers suddenly appeared, Jensen told a reporter. "One of them fired four live shells. Three passed above the ship, and the fourth hit the surface about a ship's length behind us."

THE CAPTAIN'S ACCOUNT continued: He immediately stopped his ship and hoisted his flag. One destroyer made a quick circle around the Patricia. The destroyer that opened fire stood by for a short while. Then both disappeared.

The destroyers were moving at high speed, about 40 knots, when they attacked. On the previous night the Patricia had passed six Soviet seagoing motor torpedo boats without incident.

The Patricia suffered no damage. Only two weeks ago, Capt. P. Piek of the 392-ton Dutch ship Dora, reported in Glasgow a Soviet cruiser had fired near his vessel in the Gulf of Finland as he was bound for Scotland with a load of Finnish timber. The Dora likewise was not damaged.

CREW MEMBERS of the Patricia said that while in Mezen they were told by sailors from the German ship Pollux of Bremen she had been shelled by Soviet warships late last week. The shelling, it was understood, took place in the same area as that of the Patricia.

The Germans were quoted as saying a destroyer fired one shot close to the bow of the Pollux, then disappeared.

The Patricia arrived in Tromsø late yesterday for routine repairs, and will leave on Monday for Southampton, England. This was its second and last journey to Russia this year. Capt. Jensen said. The ship had made three previous trips to Russia to pick up lumber cargoes.

Remains Critical

The condition of Frank Reynolds, 50, of Gardiner, who state police said fell from the back of a pickup truck on Thursday evening, continued to be listed as "critical" at Kingston Hospital today.

Southeast Asia Basis For Action

Agreement Made On Joint Defense

Manila, Sept. 4 (AP)—The United States today promised to furnish a "major portion" of the supplies and equipment to strengthen the Philippines armed forces "in view of the developments in southeast Asia."

The pledge was given by U. S. Secretary of State John Foster Dulles and announced in a joint communiqué following mutual defense talks today.

It followed a statement by Dulles earlier today pledging that the United States "would automatically react" if the Philippines should be attacked.

THE COMMUNIQUE said Dulles and Vice President Carlos P. Garcia, who also is Philippines foreign minister, reached agreement on all phases of a joint military defense program.

The talks today were a prelude to an eight-nation southeast Asia security conference which starts Monday.

"In view of the developments in southeast Asia the defense of the Philippines requires that the armed forces of the Philippines be strengthened through cooperative effort," the joint communiqué said.

It added that Dulles said "consideration is being given by the Department of Defense to the proposals to develop the Philippines navy and air force."

THE PHILIPPINES has asked for 210 combat planes and for help in developing naval bases. authoritative sources here have said.

The communiqué said the Philippines Saturday proposed creation of a four-division army and Dulles replied that: "The United States would furnish the major portion of the military material requirements for such an expansion of the army . . ."

In his earlier statement Dulles made it clear that the United States would come quickly to the Philippines defense if the islands were attacked.

"I wish to state in most emphatic terms that the United States will honor fully its commitment." (Continued on Page 3, Col. 2)

Two Are Injured Near Esopus, 9W Traffic Is Heavy

Only one automobile accident causing serious personal injuries was reported to state police in Ulster county last night as heavy traffic streamed through the area to begin the season's last long weekend holiday.

Two men were injured and taken to Kingston Hospital after the automobile in which they were riding ran off Route 9W one half mile south of Esopus about 6 p. m. Friday, state police of the Highland station reported.

JOHN MARCATO, 32, of Glen Burnie, Md., listed by troopers as the driver of the vehicle, suffered lacerations, fractured pelvis and dislocated hip, according to the state police report. His condition was reported as "apparently fair" at the hospital today.

The owner of the automobile, William Costello, 33, of Philadelphia, suffered lesser injuries, troopers said, and his condition was listed at the hospital as "apparently good."

State police said the two were employees of Merritt Chapman & Scott on the Kingston-Rhinecliff bridge project and apparently were on their way home for the long weekend when the accident occurred.

Balch Asks Stand On Legalizing Bingo

New York, Sept. 4 (AP)—State Democratic Chairman Richard H. Balch today proposed that the party in New York state take a stand in favor of local referendums on whether bingo should be made legal.

In a letter to Thomas K. Finletter, chairman of the 1954 Democratic State Platform Committee, Balch described bingo as "a harmless form of diversion." He said it has long been apparent that "law enforcement agencies wink at the violation of present laws forbidding bingo."

Jenner Hits Agreement On Allies Trade With Reds

Washington, Sept. 4 (AP)—Sen. Jenner (R-Ind.) assailed today as "a new surrender" to the Soviet bloc an agreement to increase the list of goods which this country's allies may ship to Russia and her European satellites without losing U. S. aid.

He said it represented "a tactical gain for the Communists as damaging to our prestige as our military retreat from the Yalu" during the Korean war.

Jenner's statement on the controversial issue of east-west trade accompanied publication by the Senate Internal Security Subcommittee of a volume of testimony taken at public hearings on "the strategy and tactics of world communism."

The subcommittee chairman, Jenner said that "almost without exception, these witnesses have described the Soviet's recent trade offensive as an integral part of its campaign for world conquest."

Harold E. Stassen, the administration's foreign aid chief, announced Aug. 25 the decision to reduce the number of embargoed goods and said it had the approval of President Eisenhower as well as the State, Defense, Treasury and Commerce Departments.

He said he was convinced the decision would result "in a net advantage to the free world of expanded peaceful trade and more effective control of war potential items." He called it a move "in the best interests of the United States."

Repair Crews Are Hit by Storm in Hurricane Area

Boston, Sept. 4 (AP)—Severe thunderstorms, hail and rain last night dealt power repair crews a setback in the wake of Tuesday's hurricane.

The brief storm in scattered parts of Massachusetts knocked out recently restored telephone and electric circuits, including about 3,000 in greater Boston.

The new damage was blamed on water seeping into temporary power lines or bolts striking unshielded transformers.

Meanwhile, Massachusetts officials were heartened today by President Eisenhower's announcement that one and one-half million dollars in federal funds have been allocated for the relief of Bay State hurricane sufferers.

GOV. CHRISTIAN A. HERTER said he was "gratified" by the presidential action but said that "until we know just how the federal money can be used, the situation isn't quite clear."

Hertel has asked an early meeting with Val Peterson, head of the Federal Civil Defense Administration to "discuss how the funds can be utilized."

Massachusetts and Rhode Island were designated major disaster areas eligible for federal relief by the President yesterday at the summer White House in Denver. Both states were the hardest-hit by Hurricane Carol which whipped through New England Tuesday.

An Eisenhower aide said last night that civil defense representatives have not completed their study of Rhode Island damage. He said federal funds will be allocated to that state as soon as the President receives a report.

To Speak Sunday In Phoenicia Area

NELSON F. SCHOEN

The Rev. Nelson F. Schoen, missionary on furlough from India, will be the guest speaker at the Phoenicia Baptist Church Sept. 5 at 11 a. m. and in Chichester at 8 p. m.

The Rev. Mr. Schoen is a missionary with the Conservative Baptist Foreign Mission Society, Chicago. Besides engaging in evangelistic touring with an Indian evangelist, literacy work, outdoor preaching, and scripture distribution he also served as chairman of the mission during the last two of his six years in India. This meant he was representative during the significant time in Indian affairs when the whole missionary program in that country was being brought under scrutiny, and many missionaries were rejected by the government of India.

The Rev. Mr. Schoen is a graduate of Eastern Baptist Seminary. He was in the insurance business for seven years in this country before beginning his missionary work.

THANK HEAVEN FOR TEACHERS

This coming week the doors will swing open in countless homes in these United States as mothers hustle their children (or young people) off to school. For some youngsters it will be the repetition of a good old democratic ritual: they are going back to school for another year. For others it will be a brand new experience in their young lives: they are just starting school. But for all of them it will be an experience with a special kind of person—a teacher.

It is indeed a truism to state that there could be no school without a teacher. But it seems to be a failing of human nature that sometimes we forget even the truisms. Out there beyond those doors of the homes that will swing open next week to school will be a very important person waiting to welcome them. It would not be very far amiss to say that the teacher is the school and the school is the teacher. That without which something cannot exist almost, if not quite, epitomizes the thing itself.

And yet how we take teachers for granted! Most parents will go through the ritual of getting their children off to school again this year with little or no thought given to the fact that there has to be somebody on the other end to greet them and take charge of them; to love them and discipline them; to hold their hands as they take the next steps or more steps along the great road of learning. Many a mother on that

would be impossible to state in human language all that a real teacher is. If you have ever sat under one you can never state in words what he or she has meant to you.

I once saw "teacher" defined as "somebody who loves somebody else's children." As we go through the ritual of opening up the doors of our homes to let our children (or young people) out on their way to school next week may I suggest that we breathe more than a sigh of relief and say: "Thank Heaven, they're off! Let's remember to breathe a prayer and say: 'Thanks, God, for all of the somebodies in our land who love somebody else's children.'"

First morning of school will breathe a sigh of relief as she watches her progeny round the corner or board the bus, and say to herself: "Thank Heaven, they're off!" There will be little thought given to the person (or persons) who will be assuming all of the tremendous responsibility of being not only the custodian of the learning process but also the moulder of character.

Lederle Chevron once said that "a teacher is courage with Kleenex in its pocket, sympathy struggling with a snowsuit, patience with papers to grade." It

Officer Injures Leg Chasing Two Men Early Today

Officer Everett J. Emmick of 12 Tietjen avenue received a laceration of the right leg early today when he fell over a railroad tie on New York Central tracks while chasing two men who had been reported acting suspiciously.

Headquarters received a call at 2:36 a. m. reporting that two young men had been seen on the tracks looking over a building between O'Neil and Downs streets and had then started down the tracks toward the Bull Market warehouse on Downs street.

Officers Emmick and Joseph Kivlan were dispatched, spied two men on the tracks and lost them in the chase. Emmick fell, tearing his trousers and injuring his leg.

It was reported to be quite dark at the time and no description of the two men was possible.

Saved by Seat Cushion

New York, Sept. 4 (AP)—Edward McDonald apparently lost control of his car early today. The vehicle plunged more than 100 feet down an embankment and landed upside down in three feet of water of the Bronx river. But 21-year-old McDonald, who lives at 23 First street, Yonkers, suffered only a laceration of the left ear. Though semi-conscious from the terrific tumble, the young man's life most likely was saved by the fact that a seat cushion fell beneath his head in such a way as to keep it above water.

Police Round Up 224

New York, Sept. 4 (AP)—Police reported 224 arrests last night in their continuing drive, now in its sixth week, to chase hoodlums and other undesirables off New York city streets. From 6 p. m. to midnight, 106 arrests were reported on Manhattan's east side and 91 on the west side. Bronx police rounded up 27 persons, mostly in the southeast section of the borough.

commitments under the mutual defense treaty. If the Philippines were attacked, the United States would act immediately," Dulles declared.

THE SECRETARY said the United States would retain its military bases in the Philippines as "concrete evidence of the United States' ability and intention to take necessary counter-measures."

While the 7th fleet has been ordered to protect Formosa from invasion no such orders are necessary in the case of the Philippines, Dulles declared, because "our forces would automatically react."

He described the mutual defense pact linking the United States and the Philippines as an "important link in the defense system of the free world" and declared that "it should be so strong as to be unbreakable."

FOREIGN MINISTERS of the Philippines, Britain, Australia, New Zealand, Pakistan, Thailand, France and the United States will meet Monday to negotiate a defense alliance designed to halt the spread of communism in southeast Asia. Prior to the conference the Philippines and Thailand strongly supported a NATO type pact which would pledge members to aid one another in case of attack.

The United States reportedly supports a military agreement under which each member would react to an attack on another within their constitutional framework.

A U. S.-proposed draft agreement which has been under study by working committees this week stresses economic rather than military cooperation among the SEATO nations.

Chief Says Heavy Holiday Traffic Is Moving Steadily

Police Chief Raymond Van Buren said today Labor Day weekend traffic was coming through "pretty good."

Heavy metropolitan traffic proceeding to vacation areas in the Catskills was flowing north through Kingston yesterday and this morning but it appeared to be moving smoothly and steadily.

Chief Van Buren said traffic lights would remain on until Monday when the heaviest flow is anticipated as cars return to the New York area. Lights will be extinguished at that time and officers stationed at traffic signal intersections to handle the south-bound flow.

Two Are Injured

police at both Highland and Kingston stations along Route 9W. Northbound vehicles were lined up solidly from the Rondout Creek bridge in Kingston back into the village of Port Ewen, residents of that community reported.

State police of the Ellenville station, on Route 209, however, reported traffic "not too heavy" in that area. This was a possible indication that metropolitan area motorists were heeding earlier state police warnings that Route 17 was a severe bottleneck south of here because of Thruway construction, and were taking Route 9W or other alternates suggested by troopers.

partial in the censure case. Beyond that, despite McCarthy's insistence, he has declined comment.

Watkins emphasized yesterday that "we're not prosecutors," saying the committee's job is to get all the facts.

"We want the Senate to have as complete a dossier on this thing as it is possible to get," Watkins said.

Once that is done, he said, then it will be up to the Senate itself "to make the final decision."

Appear in Photo

Kingston's leading businessmen of 44 years ago are pictured in a page from the March 12, 1910, issue of The Kingston Daily Freeman now on display in front of the Kingston Savings Bank on Wall street. Approximately 50 businessmen are pictured. They are not identified, as the page originally appeared as a contest, in which \$25 in cash prizes was offered by The Freeman to readers identifying the persons represented, their businesses and locations. Photographs were by T. D. Lewis.

New York, Sept. 4 (AP)—Dr. Arthur H. Bogart, 86, a fellow of the American College of Surgeons, died yesterday at the Methodist Hospital in Brooklyn. Bogart, a native of Nova Scotia, was chairman of the medical board of Methodist Hospital until his retirement in 1933. However, he was consulting surgeon to the institution until the time of his death.

Driver Arrested On Four Charges

A 20-year-old Catskill man was arrested early today at Broadway and East Strand on four charges under the Motor Vehicle and Traffic Law.

Stewart Burzee was placed under arrest by Officers Harold Bowers and Gilbert Gray at 3:45 a. m. on charges of speeding, reckless driving, no proof of insurance and operating an unregistered vehicle.

Judge Raymond J. Mino adjourned the case until Sept. 15. Burzee is represented by Attorney Francis Tucker of the firm of Cook and Cook.

Charles E. Melvin, 38, of 7 East Union street, who was arrested Aug. 29 on a charge of driving while his license was suspended, was fined \$50. Melvin pleaded guilty when arraigned before Judge Mino last Monday but sentencing was postponed until today.

Charles V. Dickson, 22, of 33 Cross street, Hudson, who was arrested at 12:05 a. m. today by Officers Harold Bowers and Gilbert Gray on a charge of speeding on East Chester street, forfeited \$15 bail when he failed to appear in court.

Gaffney Resigns Post, No List Yet

The resignation of Officer Kenneth Gaffney of 48 Boulder avenue from the Kingston Police Department was announced today by Chief Raymond Van Buren.

Gaffney's resignation creates a second vacancy in the department. The first vacancy resulted earlier this year with the retirement of Officer Elbert Soper after 37 years on the force.

Van Buren said a Civil Service examination was scheduled for September 11 to establish a list of priority. To date there are eight candidates for the police examination.

Gaffney, who had served as a patrolman for four years, has no plans for the immediate future, it was reported.

May Get Dewey's Answer Wednesday

New York, Sept. 4 (AP)—The executive committee of the Republican State Committee will meet at 12:30 p. m. (EDT) Wednesday in state headquarters at the Hotel Roosevelt, Rep. Dean P. Taylor, state chairman, announced today.

The announcement said the committee will select committee chairmen for the state convention at Syracuse Sept. 22 and 23 and fill a vacancy on the Republican National Committee.

A significant phrase in the notice said the group will "take up such other business as may come before it."

Inasmuch as Gov. Thomas E. Dewey and Sen. Irving M. Ives are scheduled to attend, it is considered possible that the governor's position as to his candidacy might be resolved at the meeting. Senator Ives is regarded as a leading choice if Dewey declines renomination.

State Fair Opens Today

Syracuse, Sept. 4 (AP)—The New York State Fair opens today with a touch of beauty and brilliant burst of light. Lovely Winifred Koegel, 19-year-old queen-elect of the exposition, was scheduled to press a button illuminating the world's largest electric light bulb.

An electronic current generated by heat from the 75,000-watt bulb operates the mechanism that opens the two-ton gates to the permanent fair grounds. A half-million people are expected to pass through the gates during the eight days and nights of the exposition.

Hurley School Plans

The Hurley Union Free School, No. 4, will open Tuesday, Sept. 7, at 9 a. m. Children will be dismissed at 11 a. m. on Tuesday.

All day sessions will begin Wednesday. Kindergarten age is from four years eight months as of Sept. 7. Children entering school for the first time must present either a birth certificate, baptismal certificate or a Bible record.

The school bus will pick up the children at the usual time and place. Milk will be served starting Wednesday under the school lunch program.

'The Abella' Is Spacious Ranch House

Rooms Five
Bedrooms Seven
Closets Seven
Cubage:

House 23,500 ft.
Garage 9,300 ft.
Dimensions 48' x 23'

Presenting an appearance of spaciousness and informality, "The Abella," presented today by the Home of the Week Plan Service, is a comfortable, well-planned home that will look equally attractive in any type of residential area.

Containing eight good sized rooms, "The Abella" can be built in stages if this arrangement best suits your convenience. The house proper measures 48 by 25 feet and has a cubage of 23,500 feet. The wing, which includes the laundry, utility room, breakfast porch and the attached garage, has a cubage of 9,300 feet. At least a 100-foot lot would be required to build the house and wing.

Rambling Style

The house, being a rambling style, needs land on all sides to best display its most attractive architectural features. Simple landscaping will prove most effective.

While any type of exterior finish can be used for this house, clapboards are suggested in the accompanying illustration because they seem most appropriate. Colored blinds will give added brightness and charm to the exterior of the house.

In addition to two regular, well ventilated bedrooms, "The Abella" has a den or bedroom. You may prefer to use this optional room as a combination guest room and den—it is admirably suited to this use.

Inclusion of both a dining room and breakfast porch provide an abundance of pleasant, conveniently located eating space. The laundry-utility room is also very conveniently situated; a door in the back wall provides ready access to the yard.

With nine closets in the house the homemaker—and her family, too—should have no trouble at all finding storage space for household items and personal belongings.

The many windows in "The Abella"—including the decorative picture window in the living room—increase the charms of both the outside and inside of the house. Of course, these windows give an appearance of added spaciousness to the house, too.

With the laundry already provided for on the ground floor, the only "must" installation in the basement is the heating plant; this should be placed under the living room.

Home Storage Space Studied By University

Whether you are building or remodeling your home, you will want to pay special attention to long-time storage spaces for clothing.

Research at the University of Illinois shows that a clothes closet should be at least 24 inches deep if you expect to hang clothing on a rod parallel with the door. A shelf 12 to 14 inches deep above the rod will take care of hats and boxes or a tier of shelves 9 to 12 inches deep will take care of these as well as shoes and purses.

For bedroom closets, not less than 48 inches of rod space is recommended for each person. Women's clothing takes an average of 2 inches of rod space for each garment, and men's clothing 2½ inches. Heavy coats and robes may take as much as four inches.

The rod should be 63 inches from the floor for adults' clothing and 45 inches for 6 to 12 year old children's clothing. Allow at least 2½ inches between the top of the rod and the shelf so hangers can be slipped on the rod easily.

Smokers, Take Notice

Tobacco users should not handle tomato plants with unwashed hands. Tobacco mosaic virus persists in the cured leaf and can be carried to a tomato plant on the hands of a smoker. This also applies to eggplant and peppers.

Label Numbers Tell Type of Fertilizer

With dozens of fertilizers on the market, mysteriously labeled with numbers such as 5-10-5 or 4-12-4, gardeners sometimes wonder what these combinations actually mean and which ones they ought to buy.

Much of the fertilizers in use today by home gardeners are known as "complete" fertilizers, which means that they are mixed compounds which carry all three of the essential plant food elements — nitrogen, phosphoric acid and potash. These are the elements which the three digits on the package represent.

Each number denotes the units of different elements contained in the mixture. The first figure always represents the proportion of nitrogen, the second the phosphoric acid content, and the third the potash. Where soils are heavy, a 5-10-5 compound is satisfactory.

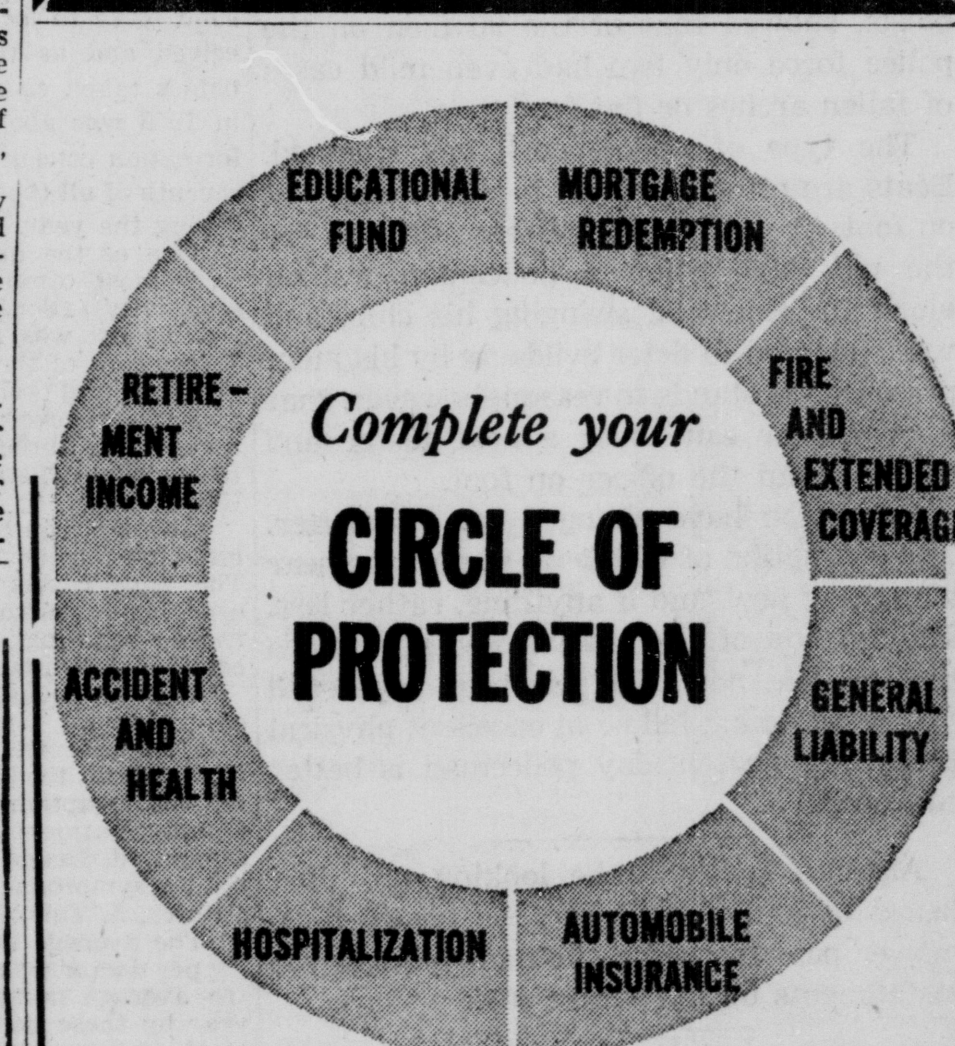

Apply Freely

When you're using a resin emulsion paint, apply it freely, flowing it on rather than brushing it out. Don't brush it on in such a way, however, that it will run. Casein paint is applied in a similar manner.

For Inside Painting

Interior painting should be done with the room at a temperature of approximately 70 degrees. It is also important for the room to be well ventilated.

SALUTE TO WORKERS

The American worker is a proud man and he has every right to be. He has more know-how, imagination, energy and independence than any worker in history. He has combined the craftsmanship of days gone by with the marvels of modern production and the fruits of his labor have raised the standard of living of his country and the world.

He earns good wages and he deserves them. He makes his voice heard in politics, not as a member of a certain class, but as an American with a wholesome interest in his country's government and a knowledge that what is good for the country is good for the people who work in it. No one can tell him how to vote, where to go to church, what he can read, what he can say.

His children and the children of his employer have access to the same schools and the same opportunity. He can own his home, pay his debts and look any man in the world in the eye. He respects his employer for he knows his employer has risked his capital and given of his knowledge and talent to provide him with the tools that can enrich them both. Employers respect him for they know that his loyalty, skill and industry are necessary to their success.

Marxist's prattle of their dream of a classless society. Here we have actually achieved such a society. Labor and capital, hand in hand, have built a land that is almost as close to a worker's paradise as mortals can achieve. It has been done without imprisoning man's spirit or robbing him of his dignity.

On Labor Day Americans salute the working men and women who have played such a large part in our progress, our prosperity and our national strength.

TODAY'S POLICEMEN

Policemen are no longer "flatfeet," whatever basis the name may once have had. A test in Wheeling, W. Va., made by chiropractors, showed that of the 90 men on the police force only two had even mild cases of fallen arches or flat feet.

The type of police work has changed. Beats are often patrolled in cars instead of on foot. A good many citizens still sigh for the old days when a policeman walked along the sidewalk, swinging his club, and was supposed to deter evildoers by his mere presence. It stands to reason, however, that a police car can cover a beat faster and oftener than the officer on foot.

Policemen have changed for the better. The corruption of which we sometimes hear is nothing new, and if anything, rather less. The fat cop of the old vaudeville jokes is seldom seen now. He has been succeeded by a lithe young fellow in excellent physical trim. The present-day policeman is better educated.

America seems to be looking up. Just heard of a man who got his power lawn mower paid for before he had to begin the installments on his winter fuel.

EISENHOWER'S VETO

President Eisenhower's veto of the bill raising the pay of federal employees shows one situation in which the President has absolute power. Most bills that he dislikes can be vetoed, but his veto is always subject to overriding by a two-thirds vote of both Houses of Congress. Under the Constitution this overriding must be done within 10 days after the veto. Now supposing that Congress has adjourned before the President acts, the 10 days will elapse without action on its part, and the veto stands unchallenged. This is called a "pocket veto."

Pocket vetoes were first used by President James Madison, and have been employed by every President since then. President Truman must lead all the rest in

'These Days'

By GEORGE SOKOLSKY
WHAT WOULD REALLY HAPPEN?

Dr. Isador Lubin, long a government economist, and Forrest D. Murden, Jr., also an economist, have prepared a pamphlet, "Our Stake in World Trade," in which the excellent point is made that whereas we only have six per cent of the world's population, we produce about 40 per cent of the world's output. Having said that, they proceed to tell us how dependent we are on the rest of the world:

"Have you ever imagined what it would be like if we were to be shut off from the products of other lands? Do you know what would happen to our standard of living if we tried to manage solely with what we could produce within our own borders? Among other things, our larders would be without coffee, tea, cocoa and bananas. Sugar, pineapples and many other foods would be selling at prices far above their present levels.

"Television and radio, if we had them at all, would be luxuries beyond the means of most Americans."

I don't know how dependent we really are upon coffee, tea, cocoa and bananas or what would become of us if we had to do without them. One could drink milk and solve a basic farm problem. As for cocoa and bananas, if the women take Dior's strictures on milady's pulchritude seriously, no woman will touch the stuff for fear that the waist-line might not fit the dress.

When learned economists try to become popularizers, they are usually out of their field. Even a columnist would do better than base the economic policy of a country on the consumption of cocoa and bananas, or even pineapples, although I thought we can get our pineapples from our own country, namely, Hawaii, which still hopes to become a state. A little further on, these economists say:

"There would be a shortage of newsprint for publishing our newspapers and magazines."

There they say something serious. Canada sure has us by the heel on newsprint, for which they charge unconscionably and get away with it because the United States was careless about its forests and has let its paper factories go north. I live, during the summer, within 17 miles of Lee, Massachusetts, where the first wood-pulp factory in the United States was erected. Some of those mills are still there, but they make cigarette and other fine papers. But I see that British capital is going into our Southern states to manufacture newsprint and may the day come when we make our own altogether and are not dependent on the Canadian cartel. The Canadians could then sell their newsprint to the British at whatever price they could get.

Now if these economists talked about really important commodities, we might have something to worry about. Take, for instance, cobalt. In 1953, 9,182,000 pounds of cobalt were produced in the United States. Africa supplied about 84 per cent of the world production of 10,100,000 pounds in 1952. According to the report of the Malone Committee, the largest potential reserves are in Cuba; there are large deposits in the United States but they have not been adequately developed.

To the United States, facing the dangers of war and the rise of cancer, cobalt is more important than cocoa or bananas and in the event of a war, it is doubtful that the ocean-lanes will be open to the sufficient cobalt can be brought from Africa. This is a really serious problem. According to the Malone Committee, the Western Hemisphere, using Canadian, American and Cuban deposits could become self-sufficient.

Or take iodine which is essential for medical and metallurgical uses. The United States, which uses from 1,200,000 to 1,500,000 pounds annually, receives about half its supply from abroad, probably mostly from Chile. So far as the United States is concerned, it could be in a satisfactory condition as to iodine, as we have a large supply. Lithium has become important because of the hydrogen bomb. Surely that means more to us than a pineapple. We get plenty of lithium in South Dakota, North Carolina and California and presumably other places in the United States.

My point is that if these economists want to frighten us, they might deal with products that really matter, not coffee, tea, cocoa and bananas. What do they take us for?

That Body of Yours

By JAMES W. BARTON, M.D.
A VALUABLE QUESTIONNAIRE

On December 28, 1953, a questionnaire was mailed to all physicians throughout the United States whose practices were wholly or mostly pediatric (diseases of children). The purpose of this unusual endeavor was to obtain a picture of the present national habits with respect to giving solid foods to infants. Over 2,000 replies were received and as the average number of newborn babies taken care of by each of these physicians in 1953 was about 250, these figures provide information concerning over 500,000 infants—one-seventh of all the infants born in the United States during the year.

One of the questions asked was which foods were most often involved in the cause of food sensitivity (allergy) and the food that stood first on this list was milk! It was found to blame in 31 per cent of these sensitive babies. Next on this list was egg yolk (27 per cent), then cereals made up of several different grains (22 per cent). After these three there is a drop down to fruits (6 per cent) custards (4 per cent) and vegetables (3 per cent).

The next question was what were the symptoms most frequently found in food sensitivity. The answer was skin rash and eczema (36 per cent) and gastrointestinal upsets such as diarrhoea, vomiting, colic (55 per cent) then head colds and asthma.

The next question was as follows: What forms of treatment were prescribed in these cases? The answers were: 1. The elimination diet in which those foods which were suspected of causing the symptoms were omitted from the diet. 2. Direct treatment of the symptoms by local applications. 3. Drugs such as the antihistamines to reduce symptoms. 4. Modified milk and milk substitutes. 5. Tar ointments.

The average number of cases of food sensitivity per doctor was 26. When this is compared with the average number of babies looked after each year by these doctors (250 cases) we see that a total of over ten per cent of all these infants showed some form of what is called food sensitivity. Opinions disagreed as to whether food sensitivity was really increasing or whether it was just being recognized oftener.

Edson's Washington News Notebook

By PETER EDSON
NEA Washington Correspondent

Washington (NEA) — The shadow of a new Communist aggression in the Far East hangs over the eight anti-Communist nations' Southeast Asia conference convening in Manila, Sept. 6. It is the Red Chinese threat to "liberate" Formosa from the Nationalist Chinese. This government of Chiang Kai-shek, incidentally, is not one of the eight whose foreign ministers are meeting in the Philippines.

Most American military and diplomatic authorities, and the Chinese Nationalist leaders have analyzed Red China's psychological warfare attacks on Formosa as mere Communist propaganda. Nevertheless, the prospect of more action in this theatre than the present hit-and-run raids by the two opposing Chinese forces raises some serious questions for the United States. And these questions cannot be ignored.

While Red China's naval forces and landing craft are unknown quantities, the Communists do have the jet aircraft and the land forces to launch an invasion of Formosa. The cease-fire in Korea and the new truce in Indo-China have eased the pressure on Red China's military resources. From the Communist point of view, an attack on Formosa would be a logical next move in its ambitious conquest of all Southeast Asia.

ANY NEW ACTION in this theatre would almost automatically involve the United States in a direct war with Red China. For as President Eisenhower pointed out, any attack by Red China against Formosa would first have to run over the U. S. Seventh Fleet.

At first glance it might seem that if the Communists wanted to start World War 3, this would be an easy place to do it. But on second thought, there are good reasons to believe that this ac-

tion might be limited even more than the Korean action.

What allies could the United States count on in case this country became involved in a war with Red China?

The Nationalist Chinese forces would be available, of course. They have been variously estimated at from 350,000 effectives to a total force of 600,000. But they would have to be transported in U. S. naval craft and supported by U. S. Airpower. For in any realistic comparison, Chiang Kai-shek's forces, no matter how good, are not equal in numbers to the new Red armies of China.

THE PHILIPPINES could be counted on for manpower aid. For every Filipino must recognize that if Formosa falls, it would be only a matter of time before the Philippines would be under attack. But Philippine aid would likewise need U. S. support.

South Korea would be willing to help, but her forces might be more usefully employed on a second front. Even for this they would still require American air support and all their military supplies.

Thailand likewise might be willing to help, but would need all her resources to defend her own borders against Red China. Australia and New Zealand are tied to the United States in the ANZUS pact. But an attack on Formosa by Red China would not technically be an attack against the United States.

Japan is still unarmed. GREAT BRITAIN DOES NOT even recognize Formosa and the British do not recognize Red China, so no help could be counted on.

The French have just suffered a severe attack from the Red Chinese in Viet-Nam and have no stomach for more action in this area. To join in a new war against Red China might only reopen the old one.

Under all these circumstances,

the United Nations could hardly be expected to act as resolutely on an aggression against Formosa as they did when the Communists first launched their attack on South Korea.

Ethiopia, Greece and Turkey and even Colombia might offer token forces, as they did in Korea, but that's about all.

The way a Formosan action would line up now, the United States would pretty much have to go it alone. For those who have long advocated that the United States should have liberated the China mainland from the Communists at the end of World War II, here is another chance to enlist and fight it out.

Questions—Answers

Q—What court in Great Britain compares with the Supreme Court in the United States?

A—The House of Lords sits as supreme judicial authority as the highest court of appeal of all the courts of Great Britain.

Q—When did America's Cup first come to the United States?

A—This trophy was won in England by the yacht America in 1851, and has been defended by the New York Yacht Club ever since.

Q—Who wrote the inscription "Equal Justice Under Law" which appears on the Supreme Court Building in Washington?

A—Charles Evans Hughes.

Q—Why do the temperatures on the moon go to such extremes?

A—The atmosphere on the earth serves as a blanket which helps to regulate the earth's temperature. The moon's temperature undergoes uncomfortably extreme changes because the moon has no atmosphere.

Q—What was Thomas Edison's first patented invention?

A—An electrical vote recorder for counting votes in Congress patented in 1868.

Woodstock, Sept. 4 —A book recently published, titled McCarthy and the Communists, by James Rorty, former Woodstock resident, and Moshe Decter, sponsored by the American Committee for Cultural Freedom, was reviewed by John B. Oakes in the New York Times, Aug. 29. Oakes reported as follows:

"In analyzing McCarthy's operations since Jan. 1953, his methods and the damaging results of both, the authors dissect the work of the junior senator as an exposé of Communists and subversives and find it wanting. It is difficult to believe that anyone will ever again have the naivete to say—as so many have said during these past four hectic years—I don't approve of his methods, but I think he is doing a good job."

"The fact is, and the book helps to prove it, that he... has not only been doing an ineffectual and superficial job, but he has been doing it through methods that parallel in many particulars the techniques of the Communists themselves."

Rorty, brother of Eva Beard and the late Marion Bullard, is the author of many past and current magazine articles; also of Our Master's Voice—Advertising: Where Life Is Better, (the story of a tour of the United States); American Medicine Mobilizes: Tomorrow's Food (with Philip Norman); as well as of Children of the Sun, a book of poems, and of more recent verse published in Harper's Magazine and elsewhere. He was a winner of a Poetry Awards prize a few years ago.

Farrell Tendered

Party on Birthday

Woodstock, Sept. 4 —A host of friends gathered at the White Horse Inn to celebrate the 70th birthday of Frank Farrell Tuesday night at a dinner party given by his wife, Louise Farrell.

Farrell, whose Motel brings guests from many parts of the country to this area, announced ambitious plans for remodeling and enlarging Farrell's Motel during the coming winter.

Farrell began his business career in New York with the printing concern of H. MacCannis Co., followed by ventures in the advertising and printing department of a sizeable cotton goods firm. Later he purchased the MacCannis Company. Following a visit to Woodstock he purchased the Pierre Hermette home where he and his wife still reside. After owning and managing the Brass Rail for five years, he sold it, intending to retire. However, he was married to Louise Breen in 1947, at which time they embarked on the Farrell Motel project.

Guests at the birthday party included: Mr. and Mrs. Robert Sperring, Mr. and Mrs. Ben Carlin, Mr. and Mrs. Ernest Mueller, Mr. and Mrs. George Kelly, Gaston Bell, John McTeigue, Mrs. Sumner Hall, Richard Stillwell, Mr. and Mrs. Bill Tuck and Miss Ann Coons.

Woodstock, Sept. 4 —Lee Marvin, who has been in location in the desert in California completing a film with Spencer Tracy, flew to New York from the coast Tuesday to appear in a special television show, Center Stage. He came to Woodstock Tuesday night to spend Wednesday with his parents Mr. and Mrs. Lamont W. Marvin of the Wittenberg road.

Mrs. Walter Riskey was the guest of honor at a baby shower Wednesday night in the basement of the Dutch Reformed Church. Hostesses were Mrs. Allan Mower, Mrs. Morris Riskey, Mrs. Joseph Raymond, Mrs. Paul Stolpinski and Mrs. John Miner. Lad Likes Antiques

Farnham, Va. (AP)—While his playmates spent their pennies, nickels and dimes for things that appeal to most 10-year-olds, Elwood Schools saved his money to buy an antique—a buggy.

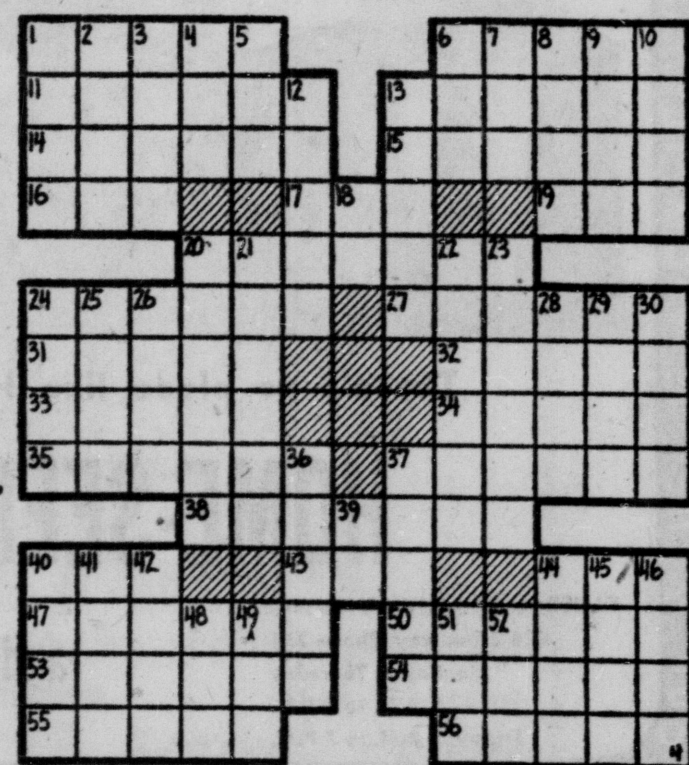

Mrs. A. F. Schools, Elwood's mother, says it took him about a year to accumulate the \$5 purchase price. And he had to save a little more to buy paint to refurbish it. The buggy—with shiny black body and wheels of Chinese red—is a novelty even in this rural area. Youngsters take turns providing the horsepower. Elwood now is saving his money to buy a bicycle—the tandem type.

Do You Remember

By SOPHIE MILLER

Received a letter and some news clippings from Edward Haurich, Sr. of Hurley avenue, in which he told something of the Old Museum Village of Smith's Cove down at Monroe.

Two ladies from St. Remy also dropped in to say "Hello," and to tell me they read this column. The next time I run across anything on St. Remy I will try and put it in the column.

There are some folks who have a hobby of collecting bits of hard-to-find information. There are times when this information is important. Looking through The Kingston Weekly Freeman of Thursday, March 19, 1908, it seems Kingston had a veteran astronomical observer, C. P. Carter. At the time he had furnished Judge Clearwater, the historian, with the latitude and longitude of the Court House on Wall street.

For those who are interested, Mr. Carter's information reads as follows: Court House's latitude is 41 degrees, 56 minutes and eight seconds north. Its longitude is 74 degrees, 51 and seven hundredths seconds west.

Mr. Carter further informed Judge Clearwater that at the time the clock at the First Dutch steeple was four hours, 56 minutes, two seconds and four hundredths of a second slower than that of the chronometer in the observatory at Greenwich, England.

Much has been written about the Mary Powell, but I wonder how many folks remember Buster, Capt. A. E. Anderson's brindle bull dog, whose biography was printed in the New York Times around 1902.

Buster was born March 4, 1897, when President McKinley was inaugurated. When he became the mascot of the Mary Powell captain he was known by folks up and down the Hudson who traveled on the boat.

In Kingston, he was a privileged character and even owned a pass on the local trolley line so he could board the trolley at any place where he pleased. He was a great swimmer loved to swim in the Hudson. Captain Anderson even arranged for a special float which one of the members of the crew took out in the water when Buster was swimming, as Buster could not get back on the boat or wharf. They would throw Buster a stick in the water, he would catch it in his mouth and bring it back to the float in his mouth. The sailor then would grab the stick and pull Buster up on the float.

When he had to be hauled back on the Mary Powell, a line would be dropped to the sailor on the float which he tied around Buster, and Buster was told to dive again in the water, then the sailor would haul him up on the Mary Powell.

One spring when the Mary Powell was being painted, one of the painters fell in the water from the scaffold. Quick as a flash Buster jumped into the water to rescue the painter, grabbing him by the collar but the painter was a good swimmer. Buster realizing this let go and went after the painter's hat, which was being carried off by the tide. So painter, dog and hat were all saved.

Capt. Anderson taught Buster to "pray." He stayed in one position with his head bowed until the good captain said "Amen." Sometimes the captain used to line up his crew, and each man would make a loop of their arms. Buster would leap through each loop one by one without a break. Buster lived to be about 11 years old.

Blue whales can swim as fast as 20 knots for brief intervals.

JACOBY ON BRIDGE

It Takes Courage For Shrewd Play

By OSWALD JACOBY

Written for NEA Service

How would you play today's hand at a contract of six hearts? West opens the three of spades, and you win the first trick in the dummy with the ace. The next move is up to you.

The "normal" play is to lay down the king of hearts and lead another heart to your ace. If you make this play, you are immediately in hot water. If you continue with the trumps, East will get a trump trick and three spades. If you abandon the trumps in order to lead the diamonds, East will ruff a diamond and return a trump to stop the picnic. Careful defense will thus set you at least two tricks.

When the hand was actually played in a recent tournament, the South player was Harry J. Fishbein, one of my favorite bridge partners. Harry liked the slam contract so well that he executed a safety play to assure its success.

After winning the first trick in the dummy with the ace of spades, Fishbein led the six of hearts from dummy and played

low from his own hand! This remarkable play allowed East to win the trick with the seven of hearts, but this was the last trick that the defenders could take.

If East returned a spade, dummy was ready to ruff with the eight of hearts. Declarer could then continue with the king of hearts, return to his hand with a club, and then draw the rest of the trumps. No defense could prevent declarer from playing all of the trumps, making four trump tricks, five diamonds, and the three top cards in the black suits.

It goes against the grain to give up the first trump trick when you have a strong suit headed by the ace-king-queen, but in this case the play made a difference of more than 1,500 points.

Doby Same Old Menace Away From Stadium

By BEN PHILEGAR

(Associated Press Sports Writer)

Lary Doby had to travel all the way to Chicago but he got his revenge on the New York Yankees.

The home run hitting center fielder of the Cleveland Indians, who failed badly at the plate during the recent New York series, persopally punctured the latest Yankee pennant strategy by driving in two-thirds of the runs as Cleveland whipped the Chicago White Sox 3-2 last night.

This was the first of six games the Indians have left with the Chicagoans and the Yankees were hoping they had softened up the Tribe enough to allow for a White Sox sweep. The Yankees, 3½ games behind, need all the help they can get to keep alive their chances for a sixth straight pennant.

With the score tied 1-1 in the fifth Doby singled home Bobby Avila. And when Jim Rivera's home run tied the score in the sixth, Doby followed up with his 30th homer into the right field stands in the seventh.

THE GAME-WINNING blast came just after the Yankees' final score had been posted on the Comiskey Park scoreboard, showing a 9-2 triumph for the New Yorkers at Washington.

Bobby Feller, with help from Don Mossi and Mike Garcia, won his 12th game. Virgil Trucks, trying for his 19th victory, was the loser.

The New York Giants pulled four games in front of Brooklyn in the National League with a 7-4 verdict over the Dodgers. Milwaukee shaded Cincinnati 3-2 in 12 innings and stayed 6½ behind.

In other action the Chicago Cubs defeated St. Louis 4-3; Philadelphia won a pair from Pittsburgh 7-1 and 10-2; Boston swamped the Philadelphia Athletics 11-1 and Detroit edged Baltimore 4-3 in 10 innings.

The Yankees came from behind with five runs in the fifth inning and added three for insurance in the ninth on a pinch double by Eddie Robinson.

WITH THE SCORE tied in the fifth, two out and runners on first and third Washington shortstop Jerry Snyder elected to try for a force play at second on a bouncer by Yogi Berra. Mickey Mantle beat the throw, a run scored and three more Yankee hits produced three more runs.

Relief pitcher Hoyt Wilhelm came through with his first hit of the year to drive in the run that put the Giants ahead to stay against Brooklyn. Given a chance to bat for himself with two on, two out and the score tied in the seventh, Wilhelm smashed a single through the middle. The Giants added two

more in the eighth to register their first success over the Dodgers since early July.

Home runs kept Milwaukee's faint pennant hopes alive. Del Crandall homered in the ninth at Cincinnati to tie the score. Jack Dittmer homered in the 12th to win it. The Reds' runs scored in the eighth on Ted Kluszewski's 42nd homer with a man abroad. Big Klu leads both leagues in home runs.

TED WILLIAMS moved up a notch in the table of all-time home run hitters with his 362nd at Philadelphia. He passed Joe DiMaggio and now is fifth place behind Babe Ruth, Jimmie Foxx, Mel Ott and Lou Gehrig.

Granny Hamner, storm center of the recent flareup on the Phillies, collected four doubles and a single in Philadelphia's sweep at Pittsburgh. The off-and-on Phils now have won five straight.

The Cardinals lost their sixth in a row when the Cubs came up with two runs in the ninth on a double by Gene Baker. Baltimore scored three runs in the eighth at Detroit to tie the score but the Tigers won in the 10th when Bill Tuttle singled home Hoot Evers.

Big Blow Comes In 8th Inning At Bridgeport

Beats Hanover, N. H.; Also Homers in 3rd

Joey Hoffman's second homer of the game enabled the Fraternal Youth League All Stars to beat Hanover, N. H., 6-4, in extra innings yesterday in the National Junior Baseball tournament at Bridgeport.

The locals were scheduled to play again today at 5 p. m.

Hoffman shared honors with Rennie Giannuzzi, the FYL southpaw ace who pitched a six-hitter, walked only three men and fanned 14.

Hoffman, son of the former catching great, powered his first circuit clout in the third inning.

A DOUBLE BY Ronnie Ashdown tied the score at 4-4 in the sixth. Giannuzzi and his mound opponent, Jase Wells, who allowed 8 hits and struck out 15, pitched scoreless ball in the seventh to send the game into extra innings.

A walk set the stage for Hoffman's game winning homer, a long smash over the centerfield fence. Giannuzzi then turned back the New Hampshire team in order in the bottom of the eighth.

Ashdown had a single besides the double.

Schedule Set For Bowling

Bowling scores for the 1954-55 season will be handled in the same manner as last year. League secretaries are requested to send tear sheet at end of regulation scoresheet. Standings will be published at the end of each round of play.

Deadline for reporting scores is 9 a. m. the day following matches. If scores are dropped in mailbox at central post office any time during the night they will reach the Freeman sports department well before the deadline.

Scores arriving after 9 a. m. will not be published.

Plans Completed For World Series

The 1954 world series will open in a National League park on Wednesday, Sept. 29, it was announced yesterday.

Box seats will bring \$10, reserved seats \$7, general admission, including standing room \$4, and bleacher seats \$2.

In New York and Brooklyn the prices would be \$10.50, \$7.35, \$4.20 and \$2.10.

There would be no public sale of box seats at the Polo Grounds since all such seats had been allocated to season ticket holders.

All series games will start at 1 p. m., local time, with the exception of Sunday games in New York and Brooklyn, which cannot start before 2:05.

Quinine Tablets Help

Richardson Upsets Lew Hoad In Three-Hour Thriller

Forest Hills, Sept. 4 (AP)—Young Ham Richardson at last has come of tennis age, and quinine pills may be the medicine Uncle Sam needs to win back the Davis Cup.

"Quinine pills did it — they brought me through that fifth set," the good-looking Tulane University law student said after he had eliminated Australia's No. 1 ace, Lew Hoad, in the quarter-finals of the National tennis championships yesterday.

The victory, a three-hour struggle won by the scores of 6-4, 7-5, 11-13, 4-6, 6-3, stamped Richardson as a good bet to carry one of the American singles assignments against the Australians in the Davis Cup challenge round at Sydney next December.

The upper bracket sends defending champion Tony Trabert against Rex Hartwig of Australia and Art Larsen, former champion against Aussie Ken Rosewall.

Trabert defeated Davis Cup captain Bill Talbot yesterday, 7-5, 6-3, 6-0, while Seixas topped Australia's Neale Fraser, 4-6, 7-5, 7-5, 6-2. Larsen won over Herbie Flam in a replay of the 1950 finals, 6-4, 6-3, 7-5.

Rosewall crushed Ed Moyland of Trenton, N. J., 6-4, 6-2, 1-6, 6-3, while Hartwig accounted for Gardner Mulloy of Miami, 6-8, 6-4, 6-3, 6-2.

Faced with growing reaction against its annual World Series at Williamsport, Little League's national headquarters has finally yielded to heavy pressure and relaxed its traditional stand against post-season games and special tournaments.

The latest directive from Williamsport sets forth the modified rules governing Little League. The LL's national board has approved limited post-season special games, authorized intra-league practice for tournament teams and intra-league pre-season practice.

AT THE SAME TIME the LL imposed responsibility for all such special games on local Little League presidents and placed leagues on notice that violation of provisions of the new rule will be grounds for revocation of franchises.

Under terms of the new regulation each league may be authorized to play five (5) special games which may be played ONLY after the conclusion of the regular season and before Labor Day or the opening day of school (whichever date is earlier). Requests for permission to play these games, including the name of opponents, site and date of contest must be submitted to National Headquarters before June 1.

IT IS FURTHER stipulated that special games may be played only between regular teams (not tournament teams) of neighboring franchised leagues. No admission may be charged for the games or any event held in conjunction with the playing of the game.

Pre-season practice games among teams of the same league or the practicing of the league's Tournament team, after July 15 with other players of the same league will also be permitted in 1955—providing such practice is done out of uniform.

National headquarters also directed that league presidents will be held responsible for the conduct of all special games and firm application of rules, standards, and policies of Little League Baseball, Inc. This includes pitcher eligibility.

LEAGUE OFFICIALS have been placed on notice that violation of the new rule will be grounds for revocation of franchise.

While LL obviously has moved to curb "bootleg" all star and special tournament play, it is obvious the Williamsport fathers are determined to keep a tight check on all activities of Little Leagues.

National LL is seriously concerned with public reaction to its annual Little World Series extravaganza at Williamsport. It has polled all its officials around the nation and the life or death of the World Series hinge on reaction to a recent questionnaire.

THE LL MIGHT conceivably scrap the World Series within the next few years. But managers and local officials in LL baseball had better familiarize themselves with all phases of the recent communique on modification. The penalty for violations is too severe. And in the end such drastic action would really hurt the kids and not the promoters who have no qualms about commercializing the talents of LL ball players.

Ciccarello, has created a new position as teacher of Science and Mathematics. This has been filled by William J. Randall, Canton. Mr. Randall holds both Bachelor's and Master's degree from St. Lawrence University and has had extensive experience as a camp counselor and assistant director of summer camps. The vacancy caused by the resignation of Miss Jean Watson as an English teacher has been filled by Miss Agnes L. Darboven, North White Plains. She has the Bachelor's degree in English from New York State College for Teachers in Albany, is currently doing graduate work at Columbia University and has extensive experience as a librarian, secretary, legal stenographer, receptionist and stenographer-bookkeeper.

Appointed to fill the first grade vacancy by the resignation of Mrs. Beulah Link is Mrs. Alyne Crescimboni, Southbridge, Mass., currently residing in New Paltz, where her husband is a member of the college staff. Mrs. Crescimboni is a graduate of Clark University, Worcester, Mass., and has done graduate work at the University of Connecticut, and has been teaching at Sturbridge, Mass. The resignation of Mrs. Elizabeth Meng created a second vacancy which has been filled by Mrs. Hylah Tamney, New Paltz. Mrs. Tamney is a graduate of the New Paltz Normal School and has done further work since graduation with teaching experience in primary grades. The positions of school nurse and remedial teacher are not filled at this time.

10 Pilots in Race

Edwards Air Force Base, Calif., Sept. 4 (P)—Ten veteran air force fighter pilots roared away today in the world's fastest race, the 1,900-mile Bendix trophy dash to Dayton, Ohio. In clockwork precision at 10 minute intervals the 650 m.p.h. Republic F84F jet Thunderstreaks zoomed up to fly six or seven miles above the ground. Each was scheduled for one refueling stop as they seek to eclipse the 603.547 m.p.h. record established last year by Maj. William Whisner, Jr., in a Sabrejet.

An engineering formula rates one horsepower of machine energy as equivalent to the work of 20 men.

Insurance isn't serious

UNTIL YOU NEED IT

An insurance policy is just a piece of paper worth only a few pennies — until the day you need it.

THEN this piece of paper may suddenly become worth thousands of dollars — may save you from bankruptcy, from ruin, from despair.

It takes imagination and intelligence and foresight to insure against future happenings which may bring sudden ruin.

Only smart, wise, thoughtful people carry insurance.

Foreign Aid . . .

The President said last week that the bill — together with other measures now on the law books — provides the government with "much more effective weapons to help destroy the Communist menace."

Among the other new laws are those outlawing the Communist Party, providing for a crackdown on Red-dominated unions, and authorizing the death penalty for peacetime espionage.

The bill providing for that stiffer penalty — heretofore 30 years imprisonment — was the maximum peacetime penalty — was signed by the President earlier yesterday.

TREAT YOURSELF TO A NEW HOUSE WITHOUT MOVING FROM YOUR PRESENT HOME

Just cover those old sidewalls with the new Flintkote Asbestos-Cement Siding. What a transformation it will make in the appearance of your house! Not expensive to do, either. This fireproof weather-tight siding is textured to look like fine old cedar shingles, yet it is as permanent as stone.

Write, phone or call today for estimates and free samples, without obligation on your part.
